

OUR CLASS CODE FOR

Architecture

Q: What is stewardship?

A: Being a protector of your riches

How can I do my part with our materials?

New Code: Because our materials need a protector, I will:

1. Put caps on pens before returning them.
2. Put rulers in neat stack on front table.
3. Use only masking tape on walls.
4. Waste no staples.
5. Return all materials from the hall/floor before end of class.
6. Keep cap on marker unless using it right then.
7. Break no pencils.
8. Tightly cap glue stick when finished.

For our safety, I will: promise \_\_\_\_\_:

1. To use safely the paper cutter, by clamping on the safety catch.
2. Avoid using any squirt bottle while pointed at anybody.
3. Throw nothing to someone else.
4. Use rulers and yardsticks on a flat surface only, not waving in the air.

I can meet these standards and will promise to do my part.
